BREAKFAST & LUNCH AT WEST POINT

### G191 – EOC INTERFACE

This course will enable the participants to develop an effective interface between the Incident Command and the Emergency Operations Center (EOC) by applying Incident Command System (ICS) principles.

The target audience includes personnel associated with: Onscene Incident Command, EOCs and Multiagency Coordination (MAC) System entities.

This 1-day course works best when delivered to incident commanders, command and general staff, and emergency operations center personnel from the same community. Exercises and group discussions are used extensively to allow participants to begin developing an interface plan for their jurisdiction.

### 402 - ICS OVERVIEW FOR EXECUTIVES / SENIOR OFFICIALS

The purpose of this course is to familiarize Executives/Senior Officials (elected officials, city/county managers, agency administrators, etc.) with the Incident Command System (ICS) principles and their role in supporting incident management. This enhanced version of the standard ICS 402 includes key agency administrator products, deliverables, usage of the primary jurisdictions written plans and procedures that are incorporated into a custom tabletop at the end of the course.
